SUMMARY

I am a motivated and enthusiastic MCA student specializing in Web and Software Development, with a strong foundation in Python, Java, and Django. Through internships and academic projects, I have gained hands-on experience in full-stack development. I am eager to apply my knowledge in an entry-level role, continue learning, and contribute to impactful software solutions.

INTERNSHIP

Amba Software	Hubli
<i>Django Developer Intern</i>	11/ 2024 – 01/ 2025
• Gained hands-on experience in full-stack Django development, order management, and database integration. • Achieved an 85% increase in interface efficiency by building dynamic, responsive dashboards using Django and Bootstrap. • Implemented CRUD operations and optimized query performance in MySQL for better data handling.

PROJECTS

Sea Animals Classification: An DL Approach to Sea Animals Identification

- Built a CNN-based deep learning model to classify and identify Sea Animals using image data.

Placement Cell (Online Student Placement System)

- Created a Django-based web app for managing student placements with admin control, company registration, and student profile features.

ON-Road Vehical Break Down Assistant

- Developed an IoT-based On-Road Vehicle Breakdown Assistant system to detect faults, track vehicles via GPS, and connect users with nearby roadside services in real time.

SKILLS

Languages - C, Java, Python

Database - My SQL.

Web Technologies - HTML, CSS, JavaScript.

Frameworks & Tools – Django.

Version Control - Git & Github

Soft Skills - Communication, Problem Solving, Team Work.

CERTIFICATIONS

- Python with Django
- Soft Skills Certification NPTEL
- C Certification
